Trailer Housekeeping

Messy and untidy trailer beds = Slips and Trips!

Before dropping a trailer or arriving for a collection, always check to make sure the trailer bed is clear of rubbish and debris from the previous load.

- Make sure drivers have access to a broom.
- Remove all packaging, product or rubbish from the trailer beds.
- Dispose of rubbish and waste responsibly and use rubbish and recycling facilities.
- Ensure coil wells are clean and well boards put back correctly.
- Ensure straps and ratchets are coiled neatly and placed at the rear of the trailer.
